KUBRIX Geo®

# WORKSHOP

## Geomechanical Modeling Software and 3D Pre-Processing

May 25, 2016

Saanio & Riekkola office  
Laulukuja 4, Helsinki

# Workshop Content

- Time and date: May 25, 09:00-16:00
- Venue: Saanio & Riekkola office
- Instructors: Axel Bolin, Itasca  
Jonny Sjöberg, Itasca
- The workshop will demonstrate the current suite of Itasca codes for geomechanical modeling, with particular focus on pre-processing (*Kubrix*) and 3D-modeling, including *PFC*. Practical examples will be shown and discussed.

# Workshop Schedule

- Preliminary schedule:

- |              |   |
|--------------|---|
| 09:00-09:30: | Introduction to Itasca codes for geo-mechanical modeling in 2D and 3D. Current and future versions & features.                                      |
| 09:30-12:00: | 3D pre-processing and mesh generation using <i>KUBRIX Geo</i> , <i>KUBRIX BlockRanger</i> & <i>Rhino</i> . Basic principles, workflow and examples. |
| 12:00-13:00: | Lunch   |
| 13:00-14:00: | 3D pre-processing, continued.   |
| 14:00-14:30: | <i>PFC</i> modeling, features & examples  |
| 14:30-15:00: | Questions & discussions.  |
